Dear colleagues,

It gives me immense pleasure in greeting you and the members of your family on 50th Foundation Day of our Company and my heartiest congratulations to you all on the eve of Golden Jubilee Celebration of EPIL.

You are well aware that your Company was founded in April 1970 and is now going to complete 50 years of its excellent journey with many feathers and firsts to its credit. It has been a wonderful expedition by EPIL in various infrastructure sectors of not only our own country but globally as well. The humble contribution by our company to the nation building has been possible due to hard work, dedication and commitment by all the present and past employees, who have been copartners in this glorious voyage.

During the on-going turbulent time of Covid-19, EPIL stands committed with the people of the country and will take all necessary measures to address & overcome the health crisis challenge triggered by this pandemic. In of the present situation, we are constrained to restrict our Golden Jubilee Celebration.

You all have taken EPIL to an exalted place with all the successes of the past 50 years. The road ahead is even more challenging. Let’s strive together and continue to contribute towards development and growth of our company and the nation as a whole.

On this special occasion, let us all reflect on the splendid mile stones achieved by EPIL with a sense of pride and rededicate ourselves to scale even greater heights with even more zeal and efforts.

I sincerely thank you all for being a valuable part of this wonderful journey and once again congratulate on this momentous occasion of Golden Jubilee of EPIL.

Stay safe, healthy and happy.

Jai Hind.
